### Limitations on Optional Services

Optional Services are services that are more expensive than the treatment customarily provided under accepted dental practice standards. Optional Services also include the use of specialized techniques instead of standard procedures. For example, an Optional Service would be using a crown where a filling could restore the tooth or an inlay instead of a restoration. If an Insured receives Optional Services, benefits under the Policy will be based on the lower cost of the customary service or standard procedure instead of the higher cost of the Optional Service. The Insured will be responsible for the difference between the higher cost of the Optional Service and the lower of the customary service or standard procedure.

### Exclusions

Claims will not be paid under the Policy for:

(1) Any loss resulting from war, declared or undeclared; (2) Any intentionally self-inflicted injury; (3) Any loss resulting from an Insured involvement in a felonious occupation or activity; (4) Any expense for which payment is provided under Medicare; (5) Any Experimental or Investigational procedure or treatment; (6) Any expense incurred for diagnosis or treatment of temporomandibular joint disorder (TMJ), unless benefits are otherwise required to be provided in Your state; (7) Prescribed drugs, medication or pain killers; (8) Charges in excess of Reasonable and Customary Charges; (9) Treatment of injuries or illness covered by workers' compensation or employers' liability laws; services received without cost from any federal, state or local agency, unless this exclusion is prohibited by law; (10) Cosmetic surgery or procedures for purely cosmetic reasons, or services for congenital (hereditary) or developmental malformations. Such malformations include, but are not limited to cleft palate, upper and lower jaw malformations, enamel hypoplasia (lack of development), fluorosis (a type of disorder of the teeth) and anodontia (congenitally missing teeth); (11) Treatment to restore tooth structure lost from wear, erosion or abrasion; treatment to rebuild or maintain chewing surfaces due to teeth out of alignment or occlusion; or treatment to stabilize teeth. For example: equilibration, periodontal splinting, occlusal adjustment; (12) Charges by any hospital or other surgical or treatment facility and any additional fees charged by the Dentist for treatment in any such facility; (13) Charges for anesthesia, other than by a licensed Dentist for administering general anesthesia in connection with covered oral surgery services; (14) Extraoral grafts (grafting of tissues from outside the mouth to oral tissues); (15) Treatment by someone other than a Dentist or a person who by law may work under a Dentist's direct supervision; (16) For treatment rendered by a person who ordinarily resides in the Insured persons household or who is related to the Insured by blood, marriage or legal adoption.

## Advantages of Dental Choice Plus

- Take advantage of network provider's discount pricing. To find a provider in your area go to <http://www.careington.com/co/PAL>
- No waiting periods on Diagnostic & Preventative services
- Diagnostic & Preventative paid at 100% when using a network provider
- No waiting periods on Major service. You will receive pre-negotiated prices when using a network service provider
- Freedom of choice. Unlike many plans that will not pay anything if you go outside their network, Dental Choice Plus will pay the non-network provider at the same rate as if they were in network. You will only be responsible for any non-network charges that are in excess of the pre-negotiated network fees schedule.
